Disclaimer

The author and publishers must point out that they can bear no responsibility for any tuning failure, service problems, engine, transmission, suspension, electrical, manufactured component or part failure due in part or wholly as a result of information or advice contained in this publication. The publication is a guide to those purchasing and owning vehicles, written by a fellow enthusiast and owner and the onus is down to the third party alone to check with a reputable engineer or agency to the roadworthiness of and vehicle inspected and or purchased. It is also your own responsibility to quantify the ability of those carrying out servicing, restoration and tuning work. As far as possible the information sourced and collated in this book is from reliable organisations and the manufacturers, but the responsibility is down to the reader to confirm specifications, part numbers, statistics, servicing frequencies and any agreement is undertaken between those parties as a contract.
